SOMETHING NEW FROM N.E.R.C.G....

OLD STYLE GRADING

New England Rare Coin Galleries has been known as a tough and accurate grading standard of the industry for over a year. By modern standards, our grading has always been at least precise and usually on the conservative side. However, we've recently become somewhat distressed at what is happening to the grading of coins in the United States: the abundance of flamboyant adjectives such as "choice" and "gem" to describe coins that, 10 years ago, would have been described merely as Unc or BU,...the use of terms such as BU with rubbing and borderline Unc to describe coins that are simply AU or perhaps Ch. AU (and subsequently EF and EF-AU coins being called fully AU.) Of course this doesn't even take into account the so-called "slider" dealers who sell EF-AU coins as BU or Ch. BU!! I am referring only to reputable dealers who are finding themselves "carried away" by the trend of ever-falling modern grading standards.

We have therefore resolved to start a one-company campaign to bring back the old style grading standards. We have gone through our entire stock and regraded each coin by these standards.

So don't let our new, even-higher prices fool you. We are still offering the best possible value for your dollar. If you are looking for honest-old-fashioned grading at realistic prices (not below market--but as close to it as can possibly be expected) then this is the place!!

Give us a try. Cast your vote to bring grading back to where it should be.

Best regards,

Jim Halperin and  
the N.E.R.C.G. staff.

UNSOLICITED TESTIMONIALS

"Your accurate grading and prompt service are very much appreciated. I have done a good deal of shopping around and N.E.R.C.G. is the only firm I continue to do business with. I plan to expand my orders. This is my first laudatory letter to a coin dealership and it is well deserved."  
W.C., Charlotte, N.C.

"Just a line to thank you for the 1861 Proof seated half which I am enjoying very much."  
D.C., Northport, N.Y.

"I have just received the 1907 High Relief \$20 St. Gaudens gold piece and it is truly a gem as you advertised. I've never seen one this beautiful and I have seen quite a few. As usual it's nice to do business with an honest dealer who grades his coins very accurately. Like your ads state, 'you get what you pay for' I am very pleased with what I paid for. No bargain price but a superb coin for the money which I will treasure for years as one of the finest High Reliefs in existence today."  
S.S., Willingboro, N.J.

"Thank you for your prompt service in filling my recent order. I was completely satisfied with the coin."  
D.G., Catonsville, Md.

"You deliver what other dealers talk about and collectors wish to receive. The coin speaks for itself. The quality is built in, not buffed on!"  
J. P., Petersburg, Va.

"I received the 1861 \$3 gold coin several weeks ago and am very much satisfied with it. You described it as semi-prooflike and I agree. I like coins that are without any taint of treatment. Now that I know you are trustworthy, I look forward to doing more business with you."  
T. B., Gaithersburg, Md.

"I was very pleased with the 1889-S BU Dollar you sent me in my last order. My primary collection is silver dollars and if I wasn't a college student, I would give you a lot more business. Thank you"  
K. D., Brooklyn, N.Y.

"I was most pleased by the 1880 Proof gold dollar ordered from you last August. It has become a much admired part of my collection and is the most accurately described coin I have ever ordered by mail. Keep up the fine work. J. S., New York, N.Y.

JEFFERSON NICKELS

1939-D Ch. AU	14.00
---------------	-------

\*\*\*\*\*

1942-P Gem Proof war nickels

Highly recommended for investment...

1) Total mintage: 27,600 pieces. Compare this to the total mintage of Proof Walking Liberty halves (74,400 pieces) now wholesaling for \$110.00 per coin, & Proof Mercury Dimes (78,648 pieces) now wholesaling at \$60.00 per coin. Even these coins are considered to be underpriced by many (ourselves included.)

2) In addition, many of the 1942 Proof sets have had the war nickel removed. Thus many more of the original mintage have been impaired than of the Mercury Dime and Walking Liberty Halves. The pieces offered here are original Gem Proofs.

3) 1942 is the first year of the war-nickel type. Many collectors now use the 1916 Mercury Dime or Walking Liberty Half or 1913 Buffalo Nickel in their type sets rather than a proof late date. However, 1942 being the first year war nickels were produced, as well as the only year they were produced in Proof, there will be a greater demand for these than for other modern proof type coins.

4) Due to the above factors, we feel that this coin should be selling in the \$200-\$250 range within a year.

JEFFERSON NICKELS

We have been buying these coins for quite some time, and have been able to acquire a total of approximately 350 pieces, and offer these on a first-come first-served basis, at the following prices:

1 coin.....	127.50
10 piece lot.....	1250.00
100 piece lot.....	12,250.00

Price subject to market fluctuation. We suggest a phone call to confirm 10 or 100 piece lots.

1820 Lg.O Ch. AU, we've seen worse called Gem BU, and many dealers would certainly grade this coin fully circulated. It is situations such as this where our conservative grading is important to you. (Note: many early type coins currently being offered as proofs are merely 1st strike (prooflike) uncirculated coins. When you order a proof coin from us, a genuine proof coin (and a nice one at that!) is what you get. We don't claim to have the lowest prices in the rare coin business, but our coins are graded properly, and as a result we feel we deliver the best possible value for your dollar. An uncirculated (or maybe even only AU) Bust Dime offered as a proof is no bargain even at 1/3 the price at which we're offering ours. The one offered here is the genuine article, as such is quite rare.)

NOTE: (Regarding the grading of commemoratives) The commemoratives listed here as BU are in nearly all cases choice or gem specimens, since most uncirculated commemoratives are usually found in choice or gem condition. In the case of the few issues which do not usually come in gem condition (examples: Lafayette dollar, Isabella quarter, Alabama, Grant, Missouri, Monroe, Pan-Pacific and Sesquicentennial) the distinction will be made between BU and Gem BU. Even in these cases however, coins listed as BU are always strictly BU coins (and usually choice ones at that.) It is interesting to note that only about 10% of the Monroes, Pan-Pacific and Sesqui commem (for example) that we get offered by dealers & collectors uncirculated, are true BU coins in our estimation. The other 90% are of the quality that we sell as Ch. AU (or sometimes not even that!)
